Frontend Developer with 2 years of experience building scalable and responsive web applications using Next.js and TypeScript, with RESTful API and WebSocket integration. Experienced in collaborating with PMs, QA, and Backend Developers while applying AI-assisted code review, Husky, Linters, SonarQube, and CI/CD across multi-environment deployments to maintain code quality and release processes.

SKILLS

Frontend: React.js, Next.js, TypeScript, Tailwind CSS, WebSocket, Responsive Design. **Backend:** PHP, Python, Laravel, CodeIgniter. **APIs & Databases:** RESTful APIs, MySQL, PostgreSQL, Axios, TanStack query. **Cloud & DevOps:** Nginx, Docker, Git, GitLab CI/CD, Vercel. **Tools & Practices:** Figma, Agile (Scrum), Linter, SonarQube, Husky.

PROFESSIONAL EXPERIENCE

Front-End Developer, PT. AERO Group Indonesia **Oct 2024 - Jun 2026**

- Developed SaaS platforms including Creator Up, Creator Up Dashboard, Creator Up Affiliate, Influp, Ads Up, and Mail Up using Next.js and TypeScript, along with TikTok upload automation using Python and ADB.
- Increased Content Creator productivity by up to 40% and saved 15 hours of work per week.
- Developed Creator Up Dashboard to analyze 100+ campaigns, reducing monthly reporting time from 2 days to 3 hours and improving UI performance by 25%.
- Optimized cross-browser UI to support hundreds of video content variations per day.
- Implemented Figma designs into UI with 1:1 design accuracy.
- Integrated WebSocket, Local Storage, IndexedDB, and RESTful APIs.
- Developed Influp, a SaaS platform for KOL data aggregation, reducing data recap time from ~1 hour to ~10 minutes through website scraping based on Instagram and TikTok URLs using Next.js and Express.js.

Full-Stack Web Developer, PT. Elecomp Indonesia **Mar 2024 - Apr 2024**

- Redesigned the company profile website with a mobile-first responsive design and SEO implementation using CodeIgniter 4, HTML, and CSS.
- Optimized system performance and database query efficiency using MySQL while ensuring cross-browser compatibility and fast rendering in production.

INTERNSHIP EXPERIENCE

Front-End Engineer Intern, DOT Indonesia **Jul 2026 - Present**

- Resolved 23 issue cards covering bug fixes and UI feature development within the first 2 months, helping accelerate the engineering team's sprint release cycle by 15% using React.js and TypeScript.
- Integrated frontend and backend services using Axios while applying semantic markup and reusable component architecture in an enterprise-scale payroll system.
- Implemented CI/CD and AI-assisted code review through GitLab Merge Requests.
- Collaborated with PMs, QA, and Backend Developers throughout the development process.
- Implemented Husky, SonarQube, and Linters to improve code quality.

Front-End Developer, Independent Study - PT Kinema Systrans Multimedia **Agu 2023 - Dec 2023**

- Developed two platforms, HairHub and Berani Bicara, from Figma designs to MVP within 4 months using React.js, Tailwind CSS, and Express.js.
- Optimized responsive UI using mobile-first design, achieving 100% accessibility.

Back-End Developer, MejaKita Edunusa Mandiri **Jul 2020 - Dec 2020**

- Maintained an educational platform using CodeIgniter 3, MySQL, and jQuery through testing and debugging.
- Designed database structures and integrated web features with the development team.

EDUCATION

Associate Degree in Information System (GPA 3.95 / 4.00) **Sep 2021 - Sep 2024**

Merdeka Malang University

- Runner-up Best Graduate, Diploma 3 Sistem Informasi, Fakultas Teknologi Informasi, Universitas Merdeka Malang (2024)
